

4700 sialaral 8

With high power output for finishing cast iron and stone

With high power output for finishing cast iron and stone

The silicon carbide fibre discs of the special 4700 siaral 8 series ensure high stock removal rates in coarse to fine sanding applications and are ideal for a variety of applications involving hard to grind metals as well as stone.

- ▶ High performance for stock removal
- ▶ Firm fibre backing
- ▶ Wide range of grits available for coarse to fine grinding

Product profile

Grit type:	Silicon carbide
Grit range:	24; 36; 60-80; 120
Backing:	Fibre
Coating:	Closed
Bonding:	Resin over resin

Applications

- Stock removal
- Surface treatment
- Smoothing and blending of flaws
- Deburring
- Structuring and final sanding

Materials

Stone; Non-ferrous metal; Ferrous metal; Composite

Use
