

5330 microtec

Perfect finish for ceramic / fibreglass finishing

**Perfect finish for ceramic / fibreglass finishing**

The elutriated 5330 microtec series for ceramic /fibreglass finishing provides the ideal basis for perfect and cost-effective polishing in ferrule production.

- ▶ Outstanding polishing properties during finishing
- ▶ Grit is calibrated very precisely for fine surface finish

Product profile

Grit type:	Silicon dioxide
Grit range in μm :	0,01
Backing:	Polyester film
Coating:	Elutriated
Bonding:	Resin over resin

Applications

- Finishing of ceramic/fibreglass terminations (fibre optics)

Use
